

At Coopers, we sometimes take photographs of students. These are taken:

- to support learning or other educational purposes
- to celebrate achievements, rewards or destinations
- as part of special events, trips or productions
- for marketing purposes
- for archive purposes and parental purchase
 - tutor group photos
 - whole year group photos

We may use these on display boards around the school, in printed publications, in digital publications on the school website and on the school's social media forums. We may also use the photos for local media.

We follow three rules for any external use of digital images:

- If you are named, we will avoid using your photograph
- If your photograph is used, we will avoid using your name
- If we wish to use both, we will seek further consent from you

We really value using photographs of students so we are able to celebrate and showcase what students can achieve, and show what life at our school is like to others. In line with new GDPR regulations, we need your consent to take your photograph and use it in the ways described in this form.

Please be aware that if you do not give consent you will not be able to be included in any photographs¹ in school.

Our Privacy Notice is available to view on our website.

By signing this consent form I agree to Coopers using my photograph or including it in video/audio material. I understand that images will only be used as detailed above and for no other purpose. I understand this form is valid indefinitely from the date I sign it but images will not be re-used 2 years after I leave the school.

I understand that I can withdraw this consent at any time in and this must be done so in writing and sent to the school at the following address; Coopers School, Hawkwood Lane, Chislehurst, Kent. BR7 5PS.
